

The Education Assessment and Accountability Review Subcommittee approved the Office of Education Accountability's annual Kentucky District Data Profiles report in November 2008. This document contains the most current data available from the State of Kentucky.

The report is a source of comprehensive education data. The profile are organized by the following areas:

- Overview and Trends
- Staffing
- Finance
- Performance

The Overview and Trends section provides data on school enrollment, end-of-year adjusted average daily attendance, student demographics, educational attainment, and school discipline. The data are provided in raw numbers and, in appropriate cases, percentages.

The Staffing section includes district data on certified personnel, classified personnel, and fulltime equivalent teachers. Additional data on average salaries for faculty and administration, years of teaching experience, and rank are provided. A data table that breaks down the salary schedule for teachers by rank completes the section.

The Finance section covers both per-pupil current expenditures and revenues by source. District data are contrasted to state averages for current expenditures by function. Revenues include federal, state, and local sources. Each district's contingency percent and end-of-year general fund balance are reported.

The Performance section includes data from EXPLORE, PLAN, and ACT, Advanced Placement exams and trends, and a breakdown of the 2008 Kentucky Core Content Tests.
